

VBScenes.com

The files in the folders:

Each Virtual Branding Scene can be used for posting online, in your emails, and for printing. They are organized into the 3 folders in this zip file.

"720W for Email headers" this folder contains the file(s) you can use as a header image in your email marketing campaigns. BTW - they can be placed anywhere in your email message.

"1920HD for Posts and Website" this folder contains the file(s) you can use on Facebook, Twitter, LinkedIn, Instagram, Pinterest and all other popular social media platforms PLUS your Website and Blog. Even if you are not currently using all of these forms of marketing, you will now have the ability to take the plunge, if and when you are ready.

"PNG for Printing on Flyers" this folder contains the file(s) optimized for printing on flyers, postcards, print ads, etc.

For more information about How, Why, What and Where to post your Virtual Branding Scenes, check out these links:
